

COMPANY ENVIRONMENTAL POLICY

OUR COMMITMENT

Baker & Baker Furniture Ltd recognises its responsibility to the environment and is making every effort to minimise the impact it has on the planet.

Baker & Baker will only use hardwood and softwood from legal and renewable sources and where ever possible only deal with suppliers who are equally committed to improving their environmental performances.

To help replenish our forests and offset our carbon emissions, Baker & Baker will plant between 12-24 trees every year locally and nationally.

ENERGY CONSERVATION

Will be promoted through the choice of buildings, processes, equipment and vehicles. Refurbishment will include measures to improve heating & lighting efficiency. Consumption of electricity and fuels will be regularly monitored.

POLLUTION

We accept our responsibility to protect the quality of land, air and water. We shall reduce the use of hazardous chemicals where possible. We shall strive to prevent accidental spillages of hazardous materials.

WASTE AND SITE MANAGEMENT

Eliminate, Reduce, Re-use, Recycle
Safe and responsible disposal of waste material through licensed companies

PACKAGING

The company will work with suppliers to:
Eliminate unnecessary packaging and reduce packaging where possible
Within the company we shall promote the use of recycled and reusable packaging

HEALTH & SAFETY

To minimise risk in all operations. We shall comply with the relevant Health & Safety legislation to provide and maintain a safe working environment. COSHH principles will be followed for hazardous materials. We will review and maintain emergency plans to safeguard the workplace in the event of fire, flood or other natural disasters.
